W. A. WHITE URGES PUBLIC OWNERSHIP

William Allen White, Kansas editor who is one of the two American delegates on Prince's Island, says that the only sure way to keep out bolshevism is to give each man a stake in his country. "Make him part owner in his national utilities and in the public utilities of the city in which he lives," says Mr. White. "That, plus a house and a job for the laboring man and land and a market for the farmer will prevent unrest."

METROPOLITAN SALESMANSHIP.
These Newark people who turn their backs on their home stores and buy goods in big metropolitan emporiums, bring home some interesting stories of their experiences. They meet salespeople who are given careful courses in all the arts of salesmanship, and who are exceedingly skillful in working off goods on a customer whether he is wholly pleased or not.
A man who bought a pair of shoes at such a place was speaking of the incident the other day. He was attended by a salesman who was a good talker, but did not always put much brains in his talk. The salesman insisted that a certain pair of shoes was a perfect fit, while the customer knew they were too big. Finally, the salesman hunted up another pair that were a little better. He surveyed them on the man's feet with admiration. "They fit a great deal better than the others," he exclaimed, forgetting he had just said the first pair was perfect and could not possibly be improved upon.
Another thing noted in that store was that there were three salesmen standing around with nothing to do while that pair of shoes were being tried on. It looked as if the business came in big rushes, and a great force of help had to be employed to take care of rush hours. That meant a big extra cost for superfluous help.
Such conditions are quite different from those of the home stores of Newark. There it is considered better to make no sale, than one that may cause dissatisfaction. And trade comes along in a rather even way, so that no costly extra force has to be employed to meet the rush hour drive.
Congressman Longworth, whose Republicanism never wavered even in the days when his distinguished father-in-law, Theodore Roosevelt, led the Bull Moose party to second place in a National election, is in open rebellion against the Main-Citizen standpoints who have usurped control of the legislative means of the newly elected Republican congress. Longworth, ardent Republican, is unable to swallow the medicine he knows will be handed out and is making an effort to save the party from the destruction that he declares will follow a return to the old methods of Cannonism. With Deane and others of his kind in Senate control, and Mann, Fordney, Mondell, Cannon and others in charge in the house, an insurgent movement is already apparent. A fast rise to a quick fall may be confidently predicted.

Washington county's representative Warren E. Burn's statement that the state oil inspection is costing the state over \$65,000 annually is very effectively refuted in the annual financial statement of Charles L. Resch, state inspector, which shows an unexpended balance, June 30, 1918 of \$55,171.71 with outstanding accounts of \$12,731.58.

COMMUNITY SINGS.
During the war community singing was very popular. It was inspiring to hear throngs of people rolling out thrilling melodies of war spirit.
The singing spirit should not die down now. It should be a feature during the coming season of out door festivals, picnics, cattle shows, band concerts, etc.
Years ago people used to gather on their porches and sing favorite old airs. Then came a rage for the latest popular songs. A few would know one minister favorite, others would know something else. You couldn't get a chorus together that knew any one thing. So there was no popular chorus singing.
The war songs, with some old favorites, are now published in little collections which everyone should own. Let the best singers of Newark and other communities gather those who enjoy music, and cultivate crowd singing. It will break down social barriers, and promote town spirit and good cheer.

It is significant of the trend of events and public opinion that strongly Republican Pennsylvania should send a Democrat to congress in a district safely Republican for fifty years when the issue was the League of Nations. The Democrat, John H. Wilson defeated the Republican J. M. Jamison in a district that the Republicans carried last fall by 9,000. This, the first opportunity for the people to speak, should serve as a warning to those who are opposing the League and endeavoring to make political capital out of such opposition.

GRANVILLE
(Special to the Advocate).
Granville, Mass., March 19.—A program given by the Women's Music club Wednesday afternoon, March 19, at the home of Mrs. Darrow, while somewhat lighter in tone was fully up to the standard of the preceding Russian compositions, both as regards the technique of the performers and the enjoyment of the audience. The concluding Russian program is reserved for the open meeting which closes the club year, on April 30th. Of the two intervening meetings, the one will feature Old English country music the other the music of native-born Obloans. Yesterday's program consisted:

Mr. and Mrs. William C. Sheppard of Grand Rapids, Mich., and their son, Captain James Sheppard, just returned from active duty in France, were guests for a few days this week at the home of Miss Eva Robinson in Centerville street.
Those who attended the Cicero-Irving contest in Recital hall, Wednesday evening, experienced many a wonderful thrill of excitement as the preliminary stunts were presented from the front seats. This is a time-honored struggle for literary supremacy in Deane Academy, and the pep displayed both by the boys and the girls would do credit to an army corps. The singing and cheering, caused the audience to the proper pitch of enthusiasm for the program which followed. Prof. B. Spencer presided, and the judges awarded nine points to Irving, one to Cicero.

Did You Know
That Deucalion, in Greek legend, corresponds to the Bible's Noah? A great flood had destroyed the whole race of men except Deucalion and his wife, Pyrrha, who saved themselves in a boat or ark, from which they landed on Mount Othrys, or as was afterwards said, Mount Parnassus. They were then commanded by Zeus to cast behind them the bones of their mother, that is, the stones of the hill side and from the stones thrown by Deucalion sprang men, from those thrown by Pyrrha, women. The chief locality of this legend was Thessaly; it existed also at Dodona.

AMERICA'S IMMORTALS
CHARLES F. HOFFMAN, Gunner Sergeant, 49th Company, 5th Regiment, U. S. M. C.
Sergt. Hoffman received the Distinguished Service Cross for an act of conspicuous gallantry in action with the enemy near Chateau-Thierry, France, June 6, 1918. Immediately after the company to which Sergt. Hoffman belonged had reached its objective on Hill 142, several counterattacks were launched against the line before the new position had been consolidated. Sergt. Hoffman was attempting to organize a position on the north slope of the hill when he saw twelve of the enemy, armed with five light machine guns, crawling toward his group. Giving the alarm, he rushed at the hostile detachment, bayoneted the two leaders, and forced the others to flee, abandoning their guns. His quick initiative and courage routed the enemy from a position from which they could have swept the hill with machine gun fire and forced the withdrawal of our forces. His home is in Brooklyn, N. Y.

EMERGENCY CLAUSE IS DEFEATED BY 14 VOTES
Columbus, March 20.—By an overwhelming vote, the house yesterday passed the Crabbe prohibition enforcement bill but killed the emergency clause.
L. H. Gibson, manager of the Ohio Home Rule association, assuming the senate also will pass the bill, announced that the measure will be submitted to popular referendum next November.
The vote on the bill, after three hours' heated debate, was 19 to 16, many of the votes supporting it. Representative John S. Graham of Licking county voted for the emergency clause.
The emergency clause, however, making the proposal effective May 27, and heading off a referendum, was defeated by a vote of 69 for to 48 against. It required 82 affirmative votes to pass.
The 48 negative votes included that of Representative Crabbe, author of the bill, who changed his vote from "yes" to "no" in order to be in a position to move reconsideration of the vote on the emergency clause.
Action on the bill took place immediately after the opening prayer by Rev. W. F. Wofford, house chaplain, in which he asked divine guidance on the important question of the day.
"Our action here today will be his story making," said Rev. Mr. Wofford in his prayer. "We are going to try to hold us to strict accountability. We pray that our action today may be a step to the great goal of truth and righteousness."
Some of the members, who voted against the emergency clause because they regard the referendum process as a sacred one declared after the session that the chaplain's prayer had been answered.
LUXEMBURG TO VOTE ON FUTURE OF DYNASTY
LONDON, March 20.—The Luxembourg chamber of deputies passed a bill on March 18, a vote of 20 to 20, calling for a referendum to decide whether the present dynasty will be maintained, a new dynasty created, or a republic established according to dispatches received here.

Why Prices Go Up and Down
Much Livestock, Few Meat Buyers; Meat Prices Fall
Little Livestock, Many Meat Buyers; Meat Prices Rise
This shows why prices fluctuate. The number of animals shipped to market varies from week to week. The demand for meat also changes frequently, and often unexpectedly.
This means that live-stock prices and wholesale meat prices change from day to day. Competition determines prices so that the supply on hand at any one time is just taken up by the demand.
Swift & Company doesn't like these price changes. We have to use the utmost skill in buying and selling in order to get our average profit of a fraction of a cent per pound of meat.

SEEKS THREE CONVENIENT LOTS FOR USE AS SCHOOL GARDENS

Supervision of Garden Work Wants Tracts Located For
Pupils of Central School—Will Enroll 1000 Gardeners
This Season.

Three vacant lots, about 40 by 150 feet, are needed for school gardening purposes and school authorities are seeking such tracts as near the central part of the city as possible for the use of the school gardeners of the Central school.

The pupils of this school have been cultivating lots near Church street and Linden avenue and over the Granville hill but F. H. Smith, supervisor of school garden work states that it is difficult to maintain the interest of the children when the distances to the garden tracts are so great.

The spring garden season in the schools will start this year with 1000 entrants, Smith said. Seven hundred already have been enrolled and it is expected that fully 300 more will take part in the garden work this year.

Smith already has 75,000 plants started to be used in the gardens and has prepared 40,000 packets of seeds. The plants are being grown in hotbeds.

In spite of the fact that last year was an off year, the school gardens showed a splendid yield when the conditions are considered. A more careful check will be maintained on the work this year and at the end of the season a careful computation of the results of

the year's work will be made, Smith said. The centrally located lots for use of the Central school pupils will have much to do with the success of the season's work and the school authorities are hoping to secure rights for such lots within the next few days. Owners of such lots can reach Supervisor Smith at the high school building by telephone.

A New Mystery

In the quiet country community that he pestered with his presence, everybody hated Hamilar Q. Glure—"Wall Street farmer," he called himself. Why shouldn't they? In the very first installment of "The Pest," a rattling new mystery story, starting next week in

The COUNTRY GENTLEMAN

we find him ruining a near-by dairy, underselling the truck-growers, beating a beautiful collie dog, and threatening one of his neighbors at pistol point. So it was no wonder that—

But it wouldn't be quite fair to give away the story. All I can say is that the editors tell me it's a humdinger of a mystery—the kind everybody likes—by Albert Payson Terhune. But this is only one story, while in the first two numbers of THE COUNTRY GENTLEMAN you get five or six of them—

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and tropical fevers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night to keep right. Try them. 10c and 50c per box. All druggists.

PRESBYTERIANS LAUNCH NEW ERA MOVEMENT OVER ENTIRE STATE

Plan To Raise One Millions Dollars For World-Wide Church Work—Services Will Be Held In Every Town In Ohio.

(Associated Press Telegram)

Columbus, O., March 20.—At precisely the same time next Sunday, 2 p. m., in every city, village and crossroads in Ohio and the nation, will be launched the Great New Era victory fund campaign of the Presbyterian church of the United States of America with a objective of \$28,014,399.50. Ohio's quota is \$1,033,293.30.

The vast sum is expected by church workers to be raised in just three hours, from 2 to 5 p. m., or at the rate of about \$13,000,000 an hour.

The New Era movement, authorized by the Presbyterian General assembly at Columbus last May, is to run for five years, and is designed to meet the church's obligations in the reconstruction period. Of the \$28,014,399.50 necessary for 1919-20, \$25,000,000 is for individual congregational expenses and \$3,014,399.50 for the world-wide work of the church.

The reconstruction budget includes repatriation of returning American soldiers and sailors, aid to the stricken Protestant churches of the war devastated countries and a general expansion of the Presbyterian church to meet post-war conditions.

Dr. Abbott Y. Wilcox, of Athens, moderator of the Ohio Synod, is chairman of the state organization. Leaders say they expect Ohio to make and surpass its quota well before the three hours are up. Women's missionary societies of the church in Ohio expect to raise \$160,000 of Ohio's quota.

The actual drive Sunday has been preceded by an intensive educational campaign. Scattering reports from individual churches that they already have gone "over the top" on their quotas are being received daily at state headquarters here.

Two of the big items in the New Era budget are a fund of \$500,000 for the repatriation, physically, mentally and spiritually of returning soldiers and sailors; and a gift of \$500,000 to a reconstruction fund for the Protestant churches in the war zones of Europe.

In the budget for congregational needs, it is expected that \$1,000,000 will be used to increase the salaries of pastors, not considered adequately paid. The New Era budget proper is an increase of more than 100 per cent over former years.

Some other items of the budget are: \$194,000 for work among the negroes; \$410,000 for the Sabbath school and missionary department; \$600,000 for care of disabled servants of the church; \$315,550 for home missions and \$4,288,679 for foreign missions. The church expects to expend \$108,000 on home mission work in Ohio.

AMUSEMENTS

AUDITORIUM.

Lockwood's Last Picture.

The last feature made by the late Harold Lockwood, "Shadows of Suspicion" and produced by Metro, comes to the Auditorium tomorrow and Saturday. This picture is said to be good and in the cast are seen numerous favorite picture stars. Mystery, combined with romance and adventure, plays a big part in this feature. The "Hill News," always interesting is also screened.

"The Scarlet Shadow."

Avoid the appearance of evil as the evil itself. This is the message Mae Murray wants to drive home to young girls in "The Scarlet Shadow," her newest Universal special production, which comes to the Auditorium theatre Sunday. She is seen as Elma Evans, continually cloistered from the world by a maiden aunt, who maintained that because of an alleged "scarlet strain" in the life of the girl's mother, Elma was not able to meet the temptations of the world. Elma sneaks out of her bedroom one night to go to a movie show with a romantic college boy. They have a "perfectly splendid" time, winding up with chocolate ice cream sodas at the village drug store. Then Elma has a hard time getting back into her room. The lad crawls in and helps her over the ledge. Then in a minute, who jumps at conclusions and thinks the worst, finding a man in Elma's room. The long-looked-for "scarlet strain" has cropped out, she thinks. After trying to force the college to marry Elma, the aunt turns her out in the streets, and the whole course of the girl's life is changed. Thus Elma, blameless and innocent, is made to suffer because of circumstantial evidence and the appearance of evil. Robert Z. Leonard, who has made all of Mae Murray's previous successes, directed "The Scarlet Shadow," in the supporting cast are such notable stars as Frank Elliott, Ralph Graves, Charissa Selwynne, Willard Louis, Martha Mattox and J. Edwin Brown. A comedy is also presented.

Filipino Serenaders.

A special extra added musical feature will be seen at the Auditorium on Monday, Tuesday and Wednesday of next week in "Domingo's Filipino Serenaders," direct from Manila, this being their first American tour.

Domingo's Filipino Serenaders are real natives and they present a program of variety and charm that has been received in America with enthusiasm. They will present songs, instrumental numbers, folk dances, etc., giving a picture of life in the South Sea Islands. For Monday and Tuesday the picture offered is "Mime, Petrova" who is screened in "The Life Mask," a First National Feature.

ALHAMBRA.

Six Shooters Preach Religion to Town.

A new brand of preaching is introduced by Tom Mix in "Hell Roarin' Reform," which opened at the Alhambra theatre yesterday. He lets his six-shooters deliver the sermons, which lead to the regeneration of a "bad" little western town.

This is the best picture in which Mix has been presented, and should add greatly to his "fan" following, because the star not only does many thrilling things, but the story itself is worthy, there is much humor and the supporting cast is strong. There seems to be no limit to the driving of Mix.

"Peck's Bad Girl."

Mabel Normand, well known to movie fans for her work with Charlie Chaplin, Mark Sennett and others, is to be seen at the Alhambra Friday and Saturday of next week in a 10-episode comedy, "Peck's Bad Girl." Miss Normand has not appeared in Newark for some time and the mere mention of a screening of one of her pictures should be the means of attracting large crowds and then again the fact that it's a Goldwyn should draw. In "Peck's Bad Girl" as Mabel Penelope Peck, she has a role suited to her talents and the story is as follows:

Mabel Penelope Peck (played by Miss Normand) has long borne the reputation of being the village scamp at Yaptank. From childhood her pranks have been the bane of the villagers' existence. A change comes in her life after Richard Hayes comes to Yaptank, apparently as a jewelry salesman, but in reality as a detective assigned to capture a band of robbers who, he has learned, are plotting to rob the Yaptank Bank. Mabel gets a job in a millinery shop owned by Hor-tense Martinet. While working late one evening Mabel discovers some fresh candle grease on the floor near a trap door. Her curiosity aroused she looks into the cellar and sees a ladder, on the rungs of which hang some overalls and caps. What before was curiosity is now suspicion and, in going through the cellar, Mabel finds an entrance has been cut through two buildings and she locates a tunnel leading to the bank vaults.

"Her Inspiration."

Always charming in her attire May Allison is no less attractive, possibly more so—in the ragged trousers which she wears in her latest Metro presentation, "Her Inspiration," which comes to the Alhambra Sunday for a one day engagement.

Of course this is only for a scene or two when she poses as a beggar to save her sweetheart from the tar and feathers promised him by the angry moonshiners. But barefooted and brown, with a tangle of golden hair half concealed under a cap, May Allison is charming in the extreme and fully lives up to her title of "sunshine May."

"The Master Mystery."

"The Master Mystery," a serial featuring Houdini, the Handcuff King showing at the Alhambra theatre every Wednesday and Thursday. This serial is the nature of a novelty serial, but it also has a wonderful love story and is filled to overflowing with thrills and perilous stunts. The story of this exciting serial was written by Arthur E. Heave and Charles A. Logue, who are world famous as serial authors. Reeves, it will be remembered, is the author of the Craig Kennedy detective stories and is considered one of America's foremost writers of mystery stories. It is said the serial has many new and novel situations, being replete with thrills and heart interest. The fourth episode is seen today.

GRAND.

"The Eleventh Commandment."

Lucille Lee Stewart, the emotional star who appears in the Eleventh Commandment, the Ralph Ince production, released by Exhibitors Mutual, is credited with the greatest success of her career in this big dramatic play.

Miss Stewart's portrayal of the character of Dora Chester in her new picture is said to afford the popular star a role in which the power and charm of her distinctive emotional talent is given full sway.

Never overacting, the surety with which she approaches her part and the magnetism of her personality gives an individuality to everything she does. A big scene in "The Eleventh Commandment," which calls upon her resources to the utmost is when as a happily married young bride worshipped by her husband, she is confronted at night in the privacy of her sleeping apartment by a visitor who turns out to be her former fiancé, determined to wreck her happiness by revealing to her husband an unhappy episode of her past.

The culmination of the scene is dramatic in the extreme, resulting in the death of the midnight intruder, but only after a succession of dramatic situations that call upon all the resources of this great actress.

GEM.

Friday.

She loved her husband better than life itself. He had married her when her parents had doomed her to become the spouse of the oily barber, who cut hair and shaved Italians at Little Italy's most pretentious tonsorial parlor. He was a clubman, she a humble maid of the Ghetto. In her wedding gown of dowdy cut and garish hue she had run away from her hair-cutting fiancé and had rushed into the arms of this handsome stranger. And he married her at the nearest preacher's. Then came the great shadow in their life.

She found him with a smoking revolver in his hand, and on the floor a man lay dead. He gave himself up to the police, and it looked like the electric chair would claim him. It seemed there was no hope. But she concocted a scheme to cheat the death dealing currents of their victim. How? Which? When? Where? To find the answers to these questions be present Friday night when "Who Will Marry Me?" Carmel Myers' latest Bluebird production will be shown here.

Tonight.

Like "The Birth of a Nation" and "Hearts of the World," "The Great Love" is the result of long and untiring effort on D. W. Griffith's part. His first 18 months on the battlefields of France to photograph the stupendous scenes of the Great Conflict. Then he came back to his California studio and wove these undying scenes into the greatest story of woman's part in the fight—a story that proves that, though women are not using cannon and machine guns and bayonets, they're fighting just the same. By all the rules and precedents of the motion picture art a picture made by D. W. Griffith should be presented as "The Birth of a Nation" and "Hearts of the World" were presented; in special theatres and at high prices. But Mr. Griffith has waived his rights to a special presentation of this picture, so that all may see what England's women have sacrificed and that the women of America may be even more inspired by the example of their sisters of Britain. By this patriotic action Mr. Griffith has enabled the motion picture theatres of the country to show "The Great Love" at just half the regular prices charged for a "D. W. Griffith Production."

STRONGER MEN TAKE THE LEAD

They Have Nerves of Iron and Real Red Fighting Blood

Vital force is the material from which leaders in all walks of life are made. It is well worth getting and holding.

The health and nerve of the athlete is what Nature intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health, his nerves like iron, spirals high, hard tasks a pleasure and life one song of joy.

A leading Doctor says, "Everyone should feel that if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with ex-cel-sior, fresh air, nourishing food and Nature's great prescription, Phosphated Iron a real blood and nerve builder."

He also says, "Phosphated Iron feeds the blood cells with iron and Nerve force, and the leading specialists are now using it successfully all over the country, that it is one of the few remedies that better class doctors can now depend on to produce results."

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

"INTERNAL BATHS PUT ME IN THE BEST OF CONDITION"

Jas. S. Sheridan, chief of police, writes Tyrell's Hygienic Institute of New York as follows: "Should I withhold the knowledge I have of the J. B. L. Cascade and the wonderful benefits I have received from same, I would be guilty of withholding knowledge that people in general should have. I was troubled with chronic constipation, liver and bowel trouble. I have used the 'Cascade' for a number of years and now find myself in the best of condition. Previous to the use of the 'Cascade' the pains in my back and bowels became very annoying, but since using the 'Cascade' those troubles have entirely disappeared."

This is but one of thousands of the same kind of letters received by Dr. Charles A. Tyrell of New York, the inventor of the "J. B. L. Cascade."

By a purely natural process of properly using warm water, the "J. B. L. Cascade" removes all the poisonous waste from the lower intestine, which physicians agree is the cause of 95% of all human ailments.

Hudson Avenue Pharmacy, R. L. Williams, proprietor, 322 Hudson avenue, corner Oak street, Newark, O., have filled an enormous demand for "J. B. L. Cascade" in the past few years, and will show and explain it to you on request. An interesting booklet on Internal Bathing—"Why Bath of To Day Is Only 50% Efficient"—can be obtained at their store free of any cost.

She failed to go, so she is again locked up at the city prison.

ADVISES FILING OF SOLDIERS' DISCHARGE

The recording of soldiers discharges is being urged by the Home Service section of the Red Cross, as a precautionary measure against the loss of local record and the loss of discharge papers. Those in charge of this department of the Red Cross work declare that records show that many discharges are being placed on record at the court house but that some of the soldiers do not realize the importance of making a permanent record of military service. The home service section is still able to furnish blanks to discharged soldiers and sailors on which to make application for the \$60 bonus authorized by congress. The committee maintains an office on the ninth floor of the Trust building.
